

Faraday Future to Kick Off 2026 EAI Robotics Deliveries Beginning Feb. 27 by Delivering to an Airbnb Operator; Establishes First U.S. “EAI Robot & Vehicle + Vacation Rental” Deployment

Feb 26, 2026

- The delivery on February 27 will mark the beginning of the Company's FF EAI Robotics deliveries, which will include high-end consumer sectors along with the exploration of additional “EAI Robot & Vehicle +” application scenarios across the U.S.
- The initial batch of deliveries to Golden Hills Investment LLC, a Florida-based high-end vacation rental investor and operator, marks a unique usage through a “EAI Robot & Vehicle + Vacation Rental” commercial application.

LOS ANGELES--(BUSINESS WIRE)--Feb. 26, 2026-- Faraday Future Intelligent Electric Inc. (Nasdaq: FFAI) (“Faraday Future,” “FF,” or the “Company”), a California-based global Embodied AI (EAI) ecosystem company, today announced its kick-off plans for its first EAI Robotics deliveries, just weeks after the Company announced its entry into the growing robotics industry. Its first deliveries are scheduled for February 27 to Golden Hills Investment LLC, a Florida-based high-end vacation rental investor and operator. This will not only mark FF's first EAI Robot delivery but also mark a unique opportunity for FF to establish its robots within a consumer short-term rental application scenario. This milestone for FF marks a significant step toward becoming the first company in the U.S. market to achieve deliveries of EAI robots.

Faraday Future to Kick Off 2026 EAI Robotics Deliveries Beginning Feb. 27 by Delivering to an Airbnb Operator; Establishes First U.S. “EAI Robot & Vehicle + Vacation Rental” Deployment

The Company will provide additional details on the delivery ceremony and its strategic significance in the Co-CEO Weekly Report and press release on March 1st. Golden Hills Investment LLC is a short-term vacation rental operator in Florida and

Nevada. Golden Hills will become the first purchaser of FF EAI Robotics.

Following deployment, the FF EAI robots will deliver both functional and experiential value to guests staying at some of Golden Hills' premium vacation properties. This integration is expected to not only enhance the overall operating performance of Golden Hills' luxury rental portfolio, but also to improve market exposure and sales conversion for FF EAI Robotics within real-world usage scenarios.

This collaboration further advances FF's “EAI Robot & Vehicle +” ecosystem integration and establishes a commercial model. It represents the first deployment of EAI Robotics within the shared living industry and introduces a new global commercial application scenario for EAI in hospitality environments. The Company intends to accelerate rollout in this sector and scale real-world deployment in 2026, laying the foundation for broader industry expansion.

ABOUT FARADAY FUTURE

Faraday Future is a California-based global intelligent Company founded in 2014 and is dedicated to reshaping the future of mobility through vehicle electrification, intelligent technologies, and AI innovation. Its flagship vehicle, the FF 91, began deliveries in 2023 and reflects the brand's pursuit of ultra-luxury, cutting-edge technology, and high performance. FF's second brand, FX, targets the high-volume mainstream vehicle market. Its first model, Super One, is positioned as a first-class EAI-MPV, with deliveries planned to begin in 2026. FF recently announced its entry into the Embodied AI Robotics business with sales beginning this year, connecting its future strategy of bringing a new era of EAI vehicles and EAI robotics. FORWARD LOOKING STATEMENTS

This press release includes “forward looking statements” within the meaning of the safe harbor provisions of the United States Private Securities Litigation Reform Act of 1995. When used in this press release, the words “plan to,” “can,” “will,” “should,” “future,” “potential,” and variations of these words or similar expressions (or the negative versions of such words or expressions) are intended to identify forward-looking statements. These forward-looking statements, which include statements regarding FF's entry into the embodied AI robotics market, involve a number of known and unknown risks, uncertainties, assumptions and other important factors, many of which are outside the Company's control, which could cause actual results or outcomes to differ materially from those discussed in the forward-looking statements.

Important factors, that may affect actual results or outcomes include, among others: demand for our robotics products; competition in the robotics industry, which includes companies with far superior experience, funding and name recognition; our reliance on a single OEM for robotics products; our ability to get the planned robotics products to comply with all applicable U.S. rules and regulations; the ability of the robotics OEM to timely supply robotics to the Company; tariff uncertainty for products imported products, particularly China; demand from automobile dealers for robotics products; the Company's ability to maintain its listing on Nasdaq; the availability of sufficient share capital to execute on its strategy, which the Company currently lacks; the agreement of stockholders to substantially increase the Company's share capital, which could result in substantial additional dilution; the Company's ability to homologate FX vehicles for sale; the Company's ability to secure the necessary funding to execute on the FX strategy, which will be substantial; the Company's ability to secure an occupancy certificate for its Hanford facility; the Company's ability to continue as

a going concern and improve its liquidity and financial position; the Company's ability to pay its outstanding obligations; the Company's ability to remediate its material weaknesses in internal control over financial reporting and the risks related to the restatement of previously issued consolidated financial statements; the Company's limited operating history and the significant barriers to growth it faces; the Company's history of losses and expectation of continued losses; the success of the Company's payroll expense reduction plan; the Company's ability to execute on its plans to develop and market its vehicles and the timing of these development programs; the Company's estimates of the size of the markets for its vehicles and cost to bring those vehicles to market; the rate and degree of market acceptance of the Company's vehicles; the Company's ability to cover future warranty claims; the success of other competing manufacturers; the performance and security of the Company's vehicles; current and potential litigation involving the Company; the Company's ability to receive funds from, satisfy the conditions precedent of and close on the various financings described elsewhere by the Company; the result of future financing efforts, the failure of any of which could result in the Company seeking protection under the Bankruptcy Code; the Company's indebtedness; the Company's ability to cover future warranty claims; the Company's ability to use its "at-the-market" program; insurance coverage; general economic and market conditions impacting demand for the Company's products; potential negative impacts of a reverse stock split; potential cost, headcount and salary reduction actions may not be sufficient or may not achieve their expected results; circumstances outside of the Company's control, such as natural disasters, climate change, health epidemics and pandemics, terrorist attacks, and civil unrest; risks related to the Company's operations in China; the success of the Company's remedial measures taken in response to the Special Committee findings; the Company's dependence on its suppliers and contract manufacturer; the Company's ability to develop and protect its technologies; the Company's ability to protect against cybersecurity risks; and the ability of the Company to attract and retain employees, any adverse developments in existing legal proceedings or the initiation of new legal proceedings, and volatility of the Company's stock price. You should carefully consider the foregoing factors and the other risks and uncertainties described in the "Risk Factors" section of the Company's Form 10-K filed with the SEC on March 31, 2025, and Form 10-Qs for the quarters ended June 30, 2025 and September 30, 2025 filed with the SEC on May 9, 2025, August 19, 2025 and November 21, 2025, respectively, and other documents filed by the Company from time to time with the SEC.
